CASP8 is the short name of the conference, as the full name is unwieldy:

"8th Community Wide Experiment on the Critical Assessment of
Techniques for Protein Structure Prediction"
[<http://predictioncenter.gc.ucdavis.edu/casp8/index.cgi>]

The location is Sardinia, Italy:

"The meeting to discuss results of the experiment will be held on the
island of Sardinia, Italy, December 3-7, 2008 (starting at 6pm on the
3rd and ending at 12pm on the 7th, tentatively). The meeting will take
place at Hotel Setar, near Cagliari. The hotel is located in Quartu
S. Elena, 10 kilometers from Cagliari and 15 from the Cagliari airport."
