James was really enthusiastic about the course, and since it was a relatively small class, it was naturally infectious. He managed to get people involved in discussions and also presented the advanced research topics in a very brief but clear manner that blended in well with the pace of discussions. All in all an excellent learning experience.

Good broad introduction to different ideas/fields.
Covered a lot. Good class format.

Would have been helpful to have gone into more detail about some ideas beyond the scope of papers. But then that would have limited the amount of things we could have covered.
