Fellowship Assignment Feedback

Generally:
The trick and the curse - *adapt* application to opportunity

NSF specific: title, keywords,
Address NSF-rubrics: Intellectual Merit | Broader Impact

• try to sum up what you learned
• clear thread is vital
• don’t forget research environment (PI etc)!
• if not explicitly forbidden or impossible: consider
  figures, *time line* with specific outcome of proposed research

I have time to schedule 30’ with everyone who is submitting (with current or new research proposal)
